

MATRIX NUTRITION

Net Weight 45 lbs.
DS-110

**100% Biodegradable
100% Environmentally Safe
Replaces Hazardous and Carcinogenic Footbath**

FootLocker-G is specifically designed to provide a **biodegradable** and **environmentally friendly** footbath as an alternative to footbaths laden with carcinogenic formaldehyde or illegal heavy metals such as copper and zinc. **FootLocker-G** can withstand the heavy soil and urine loads associated with dairy footbaths. Its unique formula allows it to be used safely.

DIRECTIONS:

- Locate footbath in area regularly traveled by animals.
 - If practical, locate a footbath containing water preceding the treatment foot bath in order to help clean the cow's feet.
 - Footbath should be about 4 to 6 inches deep to ensure adequate coverage.
 - Footbaths should be changed every 300 to 500 head (fouling of the bath may alter actual number of head).
- TREATMENT LEVEL:** 22.5 lbs. of powder per 50 gallons of water (or equivalent ratio). Use 4-7 times per week, 2 times per day.
- MAINTENANCE LEVEL:** 22.5 lbs. of powder per 50 gallons of water (or equivalent ratio). Use 2-3 times per week, 2 times per day.
